

# RESTORATION, RECORDING AND DOCUMENTATION OF EARTHEN ARCHITECTURAL HERITAGE

10-18 February 2019  
M'HAMID OASIS, MOROCCO

## PROGRAM

Practical approach to traditional architecture and building techniques (rammed earth, mud bricks, mud renderings and straw-roofing), theoretically underpinned by lectures.

- Restoration of a community building in the M'hamid Oasis as a way to promote architectural and cultural heritage as a motor for local development
- Workshop on traditional lime based plastering (*tadelakt*)
- Training in heritage recording and documentation
- Lectures on M'hamid Oasis, earthen architecture, heritage documentation and analysis, heritage development strategies and methods
- Sociocultural activities involving the local community

## OBJECTIVES

- Learn the traditional building techniques, their associated crafts and the use of *tadelakt* directly from local masters
- Understand the conditions and context of heritage sites in M'hamid
- Live and work along with local people, thus contributing to the sustainable development of this remote place
- Experience the region, its culture and people, and promote cultural exchanges

## REGISTRATION

- Fees: €500 (professionals), €400 (students). Fees include tuition, full board accommodation, insurance, certificate of attendance and documentation (transportation to/from the oasis is not included)
- 20 available places, of which 2 half-fee offered to participants from the DAC List of ODA Recipients on a first-come, first-served basis
- For information: [www.terrachidia.es](http://www.terrachidia.es), [www.archiam.co.uk](http://www.archiam.co.uk)
- For registration (deadline: 31<sup>st</sup> December 2018): [info@terrachidia.es](mailto:info@terrachidia.es)
